Search for 'eResults'

### Getting started with eResults is easy.

Simply visit [results.clinicallabs.com.au](https://results.clinicallabs.com.au) and if you are already set up with our previous eViewer, you can use your existing username and password.

The platform is located entirely online in a secure environment, so remember to bookmark the page so you can return to it easily. For mobile users, you can select the 'Add to Home Screen' option from your browser to create a shortcut on your device, or alternatively, download the app on Google Play or App Store by searching "eresults".

If you are not yet set up with eResults you can register online here: [clinicallabs.com.au/register/eHealth/](https://clinicallabs.com.au/register/eHealth/)

**eResults Viewer**

Tip: You can now login using your username OR the email address that is associated with your account

# Home Screen

The eResults Home Screen features fast loading of results and a simple, intuitive display. Simply click on a patient result to view the episode.

## Provider-based Search

Use this dropdown menu to filter your results by provider/clinic

## New eOrder from Home Screen

Generate a new pathology order. If you click this from Home Screen you will be prompted to search for your patient from our patient database.

## Result Refresh

Click the Refresh button to refresh the page and load the latest results

## Automatic Refresh

Slide the toggle to the right to enable automatic refresh of results every 15 minutes

## Main Search Bar

Enter a patient name and press return to perform a patient search

eResults will highlight any unread results. A red panel indicates an abnormal result.

## Preview Mode

In Preview Mode, simply hover over a patient's test to quickly preview their result. This feature must be enabled in your 'Account Settings' page. Preview Mode is only available for desktop users.

Urgent results are displayed with an exclamation mark

## Your Account

Click here for important account details, such as changing your account settings, locating the latest user guide, and providing helpful feedback to the Clinical Labs eHealth team about eResults.

## Tip:

To open a patient in a new tab or window, simply right click on the patient and select the option from the menu.

KEY

	Panel is normal, not viewed		Panel is normal, viewed
	Panel is abnormal, not viewed		Panel is abnormal, viewed
	Panel is pending		Unviewed
			Viewed
			Urgent

To further refine your search results the 'Advanced Search' button can be selected, displaying more search filter options.

The screenshot shows the 'Advanced Search' form. At the top is a search bar for 'Patient name' with a magnifying glass icon and an 'X Close' button. Below this is a 'QUICK SEARCH' section with fields for 'Date Of Birth' (DD/MM/YYYY), 'UR/MR no.', 'Ward', and 'Lab Number'. A note states: 'Searching via any of these fields requires selecting a report period below'. Below this note are fields for 'Reference', 'Panel Department' (a dropdown menu), and 'Panel'. Further down, a note states: 'The report period can be refined further by selecting a start and end date'. This is followed by fields for 'Select a Report(s) Period', 'Referred Start Date' (DD/MM/YYYY), and 'Referred End Date' (DD/MM/YYYY). A purple 'Search' button is at the bottom right. Three orange arrows originate from callout boxes below: one points to the 'Select a Report(s) Period' field, another points to the 'Panel Department' dropdown, and a third points to the 'Ward' field.

**NB:** Referral date is the date the pathology test was referred by the doctor. Reported date is the date the result was reported to the doctor.

**Panel Department**  
Users can filter by test type using the Panel Department dropdown menu

- Panel Department
- Blood Bank
- Biochemistry
- Cytology
- Molecular
- Microbiology
- Cardiology
- Haematology
- Endocrinology
- Immunology
- Serology
- Other

### **Hospital Wards**

This allows hospital users to filter results based on the hospital ward.

(Please contact our eHealth team to request this feature to be set up)

- All Wards -
- ACCIDENT & EMERGENCY
- CORONARY CARE UNIT
- HOSPITAL IN THE HOME
- INTENSIVE CARE UNIT
- RISBY MIDWIFERY
- AMBLESIDE
- CHESTERFIELD
- FERNDAL
- STAMFORD
- NURSERY/PAEDIATRICS
- Oncology
- PRE-ADMISSION

Select a patient from your home screen and you will enter Episode view, giving you the ability to display all results for a patient episode with a single mouse click or finger tap.

## Add-on Test

Add-on eligible tests to specimens that have been in our laboratories for a predefined time, directly from eResults. See p11 for more information.

## New eOrder from Episode View

Generate a new pathology order. If you click this from Episode View your patient's details will be pre-populated.

## Print / Download Results Across Multiple Patient Episodes

Click the icons to view the print or download options available across multiple patient episodes

Please note: for app version of eResults, only native Download feature is available.

All episodes for this patient are listed here.

Panels in red text indicate abnormal results.

Panels with exclamation symbols indicate urgent results.

Panels with solid colour dots have not been viewed. Panels with outline only dots have been viewed.

## Print / Download Results Within A Single Patient Episode

Click the icons to view the print or download options available within a single patient episode

Please note: for app version of eResults, only native Download feature is available.

## Cumulative View

Click to enter a new view displaying all previous patient history for a specific test. Available to view in tabular or chart format.

## Removed Panels

Use this toggle to either show or hide Removed Panels. Removed panels signify tests that have been carried out as a necessary step in obtaining a valid patient result, but were not necessarily ordered by the clinician.

## Print Panels Across Episodes

To print specific panels across patient episodes, select the specific panels you wish to print, or Select All, and the 'Print Selected' button will be enabled.

## Sort Results

Sort By : Date collected  
Date ordered  
Date updated  
UR No.

You can choose to order your results by the date of collection (**Date collected**), the date the test was ordered (**Date ordered**), by the most recent report (**Date updated**) or by **UR number**. The default option is Date Collected and your sort preferences will be saved next time you use eResults.

## Printing and Downloading Results

Panels can be printed/downloaded within a single episode by using the icons at the top right of the report, or across multiple episodes by using the icons under the Test Search Bar.

Click the icon to select which panels you would like to print/download.

# Order pathology directly from eResults

Order pathology directly from eResults using our powerful eOrders engine – creating an impressive all-in-one digital platform for viewing results **and** ordering pathology tests. Take advantage of our full suite of eOrders features, which are now accessible via eResults, including: intelligent test search, clinical recommendations, test favourites, telehealth functionality, MyHealthRecord integration and much more.

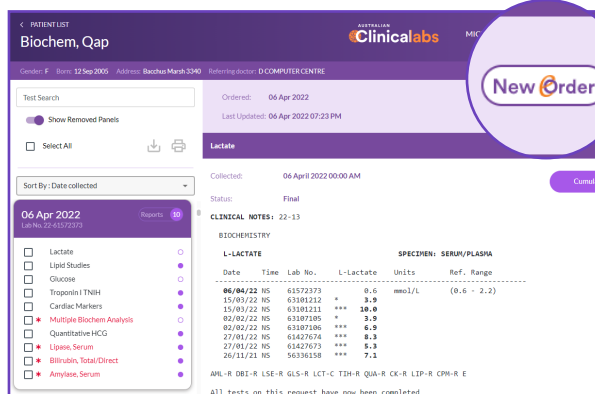

## 1 CLICK 'NEW eORDER'

FROM HOME SCREEN

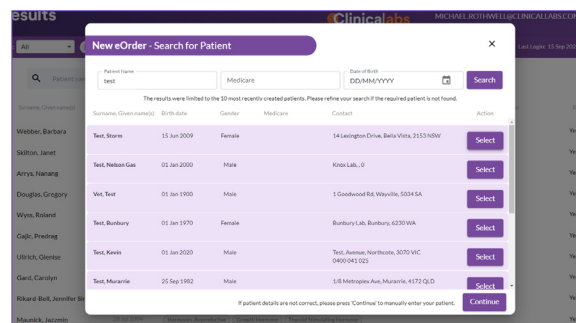

Access eOrders from the Home Screen (above), or directly from a patient episode (below).

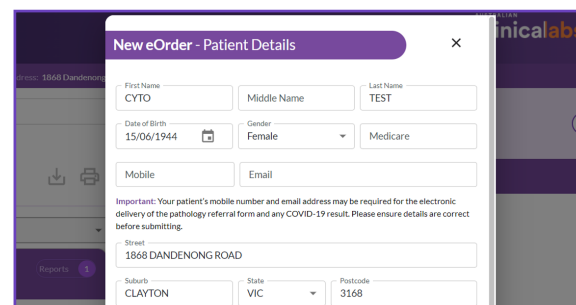

FROM PATIENT EPISODE

## 2 CONFIRM PATIENT DETAILS

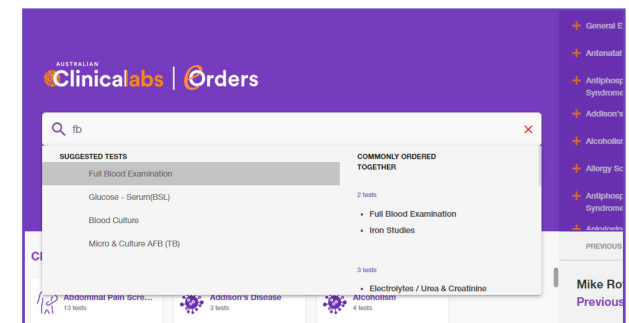

From the Home Screen, you will be prompted to search for a patient. Select your patient and confirm details are correct. If the patient is not in our database, you can manually enter their details.

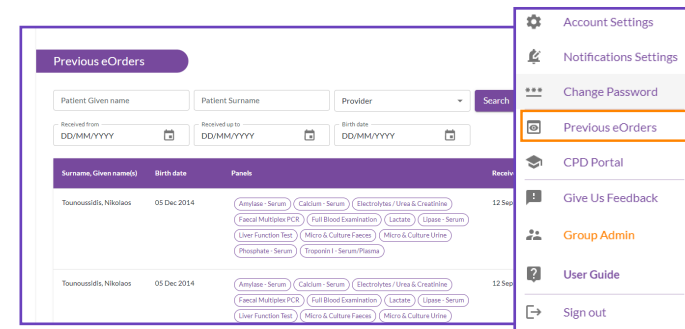

From a patient episode, your patient's details will be pre-populated. Confirm patient details are correct, and click 'Continue' to proceed to eOrders.

## 3 ORDER YOUR TESTS

Order your tests via eOrders and take advantage of all the built-in features, such as telehealth support, clinical recommendations and much more.

View your previous eOrder history in eResults by selecting 'Previous eOrders' in your account menu

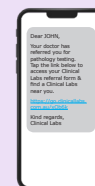

NEW!

Send pathology requests directly to your patient via SMS!

- ✓ Email referral form to patient
- ✓ SMS referral form to patient

test.patient@gmail.com

0422 000 001

In eOrders, tick the 'SMS referral form to patient' box, ensure the mobile number is correct, and your patient will receive a SMS with a link to their digital referral. See next page for more information.

## How it works for your patient

If you check the box entitled 'SMS referral form to patient', your patient will shortly receive an SMS with a link to their personalised pathology referral portal as outlined below:

### Receive SMS

Tap the link to proceed to the eRequest Home Screen.

### Enter Home Screen

View nearest Collection Centre based on current location. Tap 'Access your Pathology Referral' to view eRequest.  
Note SMS opt-out link at bottom of screen.

### Enter Password

Enter your Date of Birth in 'DDMMYYYY' format to access your referral.

### Print/Download Referral

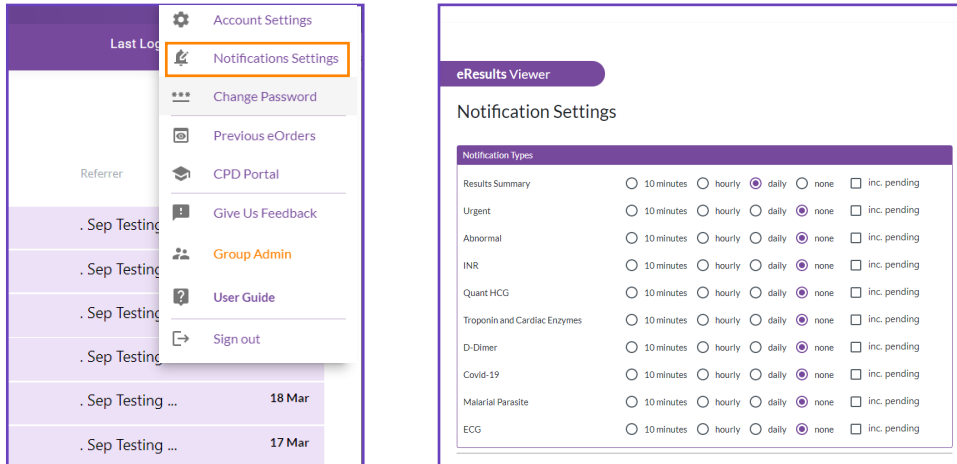

Download pathology referral for printing prior to collection centre visit.

### Find a Collection Centre

Enter a location and choose from the options available. Tap to display opening hours and other information.

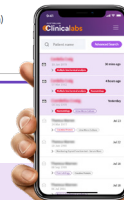

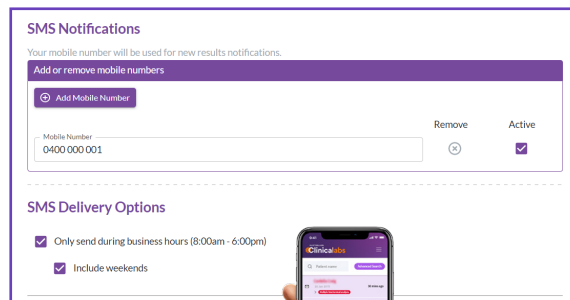

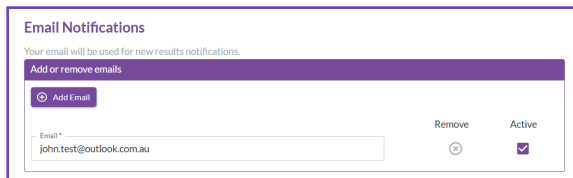

## Customise Your Notifications

The doctor notifications console allows users to have more flexibility about which results they receive notifications for, and how often. Result categories include Urgent, Abnormal, D-Dimer, COVID-19 and more.

- From the Home Screen, choose 'Notification Settings' from the account menu
- Choose Notification Type**  
Select which category of results you would like to be notified about, and how often. If you select 'Results Summary', all result categories will be included. You can also choose to include pending results.

- Choose Notification Delivery Method**  
You can choose to be notified via email and/or SMS to your mobile. Simply add any email addresses or mobile numbers you wish to send notifications to. SMS notifications can be turned off during weekends or outside of business hours.

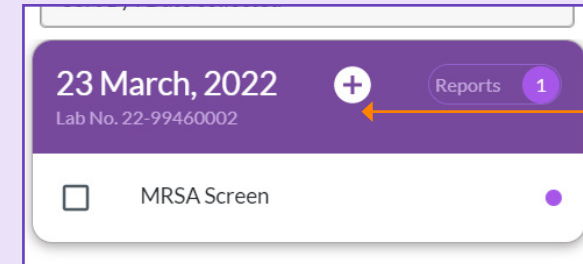

**NEW!**

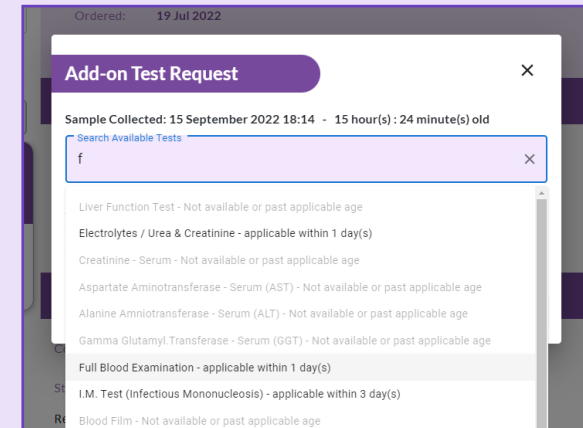

You can now use In-app push notifications if you are using the eResults Mobile App!

## Request an Add-on Test

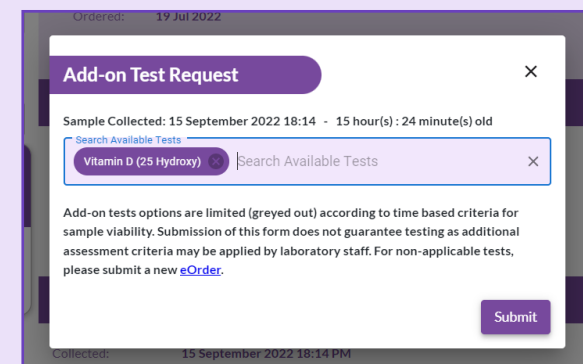

You can Add-on eligible tests to specimens that have been in our laboratories for a predefined time, directly from eResults. Here's how it works:

- Episodes that are eligible for Add-on Tests will display this 'add-on' icon. Simply click the icon to order your add-on test.

- Start typing your test to bring up available tests to be added. Tests not available to be added due to the age of the specimen will be greyed out.

- Once you have selected your add-on test(s) simply click 'Submit' and your request will be sent to our laboratory.

Customise your personal eResults experience by locating the 'Account Settings' page, which can be found under your user profile at the top right of the page.

### Multi-Factor Authentication

You can choose to enrol via three methods:

1. via Email
2. via Authenticator App
3. via SMS

Users are given the option to nominate a trusted internet browser, meaning they the extra step is required every 14 days.

#### What is MFA?

MFA is an authentication method that requires the user to provide two or more verification factors to login. For example, after entering your initial credentials, you will be asked to provide a second unique code that has been sent to you via SMS, email or authenticator app.

The screenshot shows the 'eResults Viewer' interface with the 'Account Settings' section. It includes input fields for 'Primary Email' and 'Mobile Number', a checkbox for 'Auto Refresh' (checked), a section for 'Preview Mode' with a checkbox (checked), and a section for 'Open New Tab' with two checkboxes (both checked). At the bottom are 'Back' and 'Save' buttons. Orange callout boxes with arrows point to specific features: 'Primary Email and Mobile Number', 'Auto Refresh', 'Preview Mode', 'Auto-open New Tab', and 'Multi-Factor Authentication'.

**eResults Viewer**

### Primary Email and Mobile Number

Here you can change the primary email address or mobile number that is associated with your account. Please note that the primary email address / mobile number will be used for password resets, logins and multi-factor authentication.

### Auto Refresh

Check this box if you would like eResults to automatically refresh patient results every 15 minutes. If this is unchecked, you can still do a manual refresh by clicking the Refresh button on the homepage.

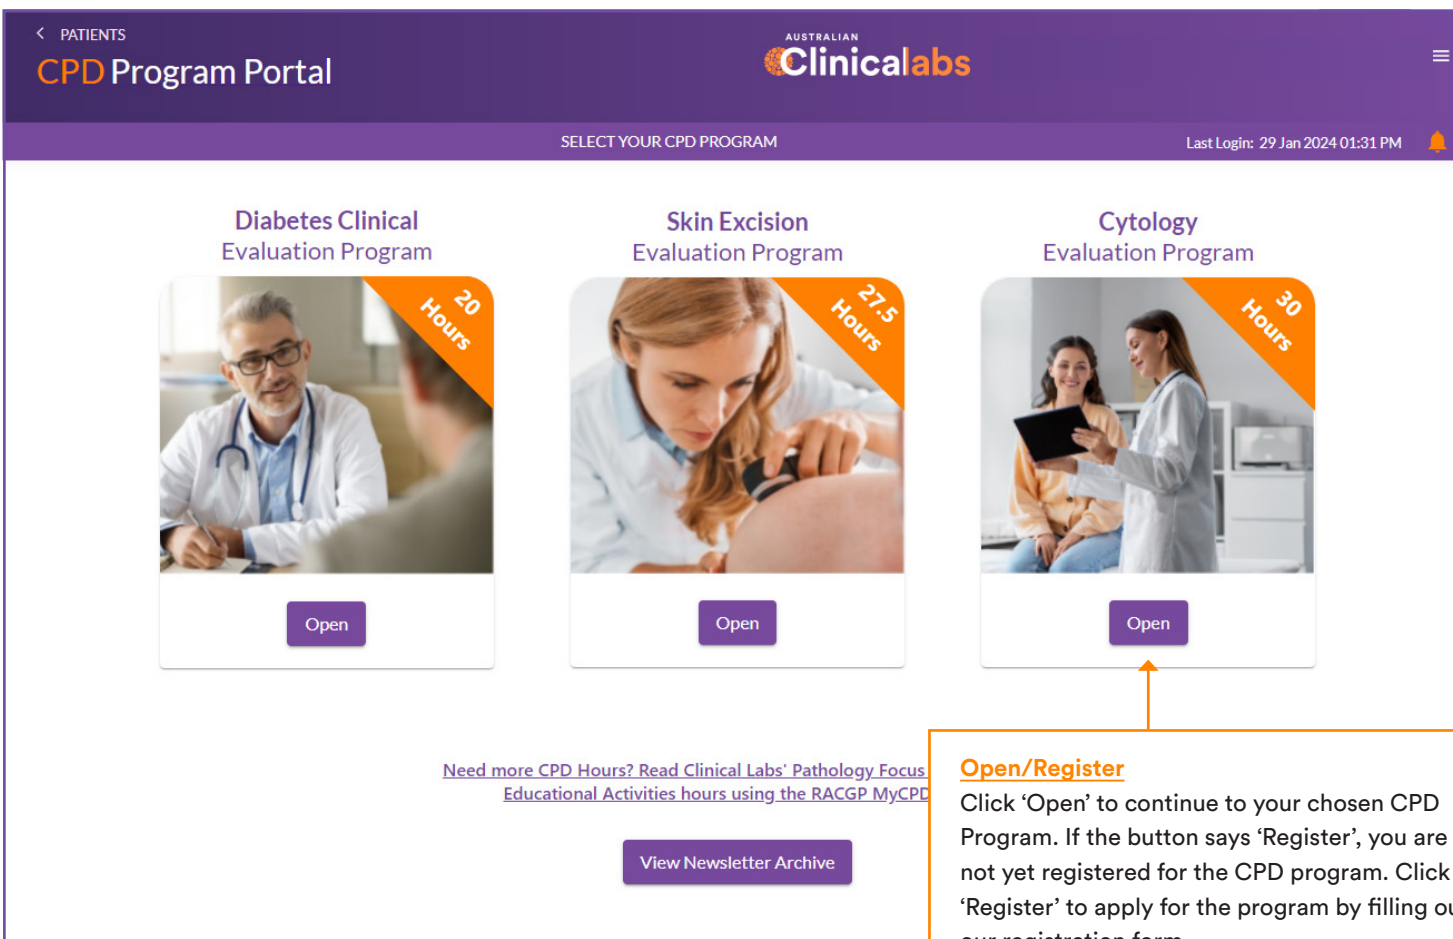

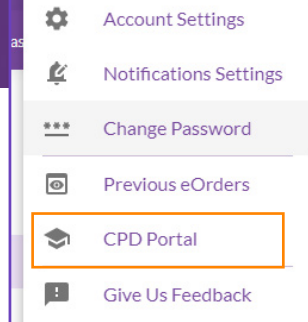

### Preview Mode

Check this box if you would like to enable Preview Mode. Preview Mode enables patient results to be quickly previewed by hovering over the test from the homepage without clicking into the patient report. Only available for desktop users.

### Auto-open New Tab

Check this box if you would like eResults to automatically open a new tab when you click into a patient from the Home Screen.

The online portal for CPD Participants to access program reports can be found within eResults. Simply login to eResults, open the main menu in the top-right corner, and select 'CPD Portal' - where you will be directed to the CPD Home Page (below).

### CPD Enquiries

To contact our CPD Team, navigate to 'Give Us Feedback' which can be found in the main menu. Please select your Feedback Type, the relevant CPD Program and include your Contact Details in the form. Alternatively you can email our CPD team directly:

Diabetes Program: [diabetes@clinicallabs.com.au](mailto:diabetes@clinicallabs.com.au)

Skin Program: [skin.audit@clinicallabs.com.au](mailto:skin.audit@clinicallabs.com.au)

Cytology Program: [cst.audit@clinicallabs.com.au](mailto:cst.audit@clinicallabs.com.au)

### Open/Register

Click 'Open' to continue to your chosen CPD Program. If the button says 'Register', you are not yet registered for the CPD program. Click 'Register' to apply for the program by filling out our registration form.

A 'User Feedback' form with a close button (X) in the top right. It includes radio buttons for 'User Support \*', 'Bug Reports \*', and 'Feature Requests/Enhancements \*'. A dropdown menu for 'Please select CPD Program for your feedback (Required)' is set to 'Diabetes Clinical Evaluation Program'. There is a text area for 'Feedback (Required)' with the placeholder 'Type feedback here'. Below this is a 'Contact Details' section with a checkbox for 'Include my contact'. At the bottom, it says 'For all other enquiries please [click here](#)' and a 'Submit' button.

**Note:** Please do not contact our eHealth team for CPD-related enquiries. For all CPD-related enquiries, please contact our CPD Team using the online form or program email address to the right. During peak times it may take 48-72 hours for our team to respond.

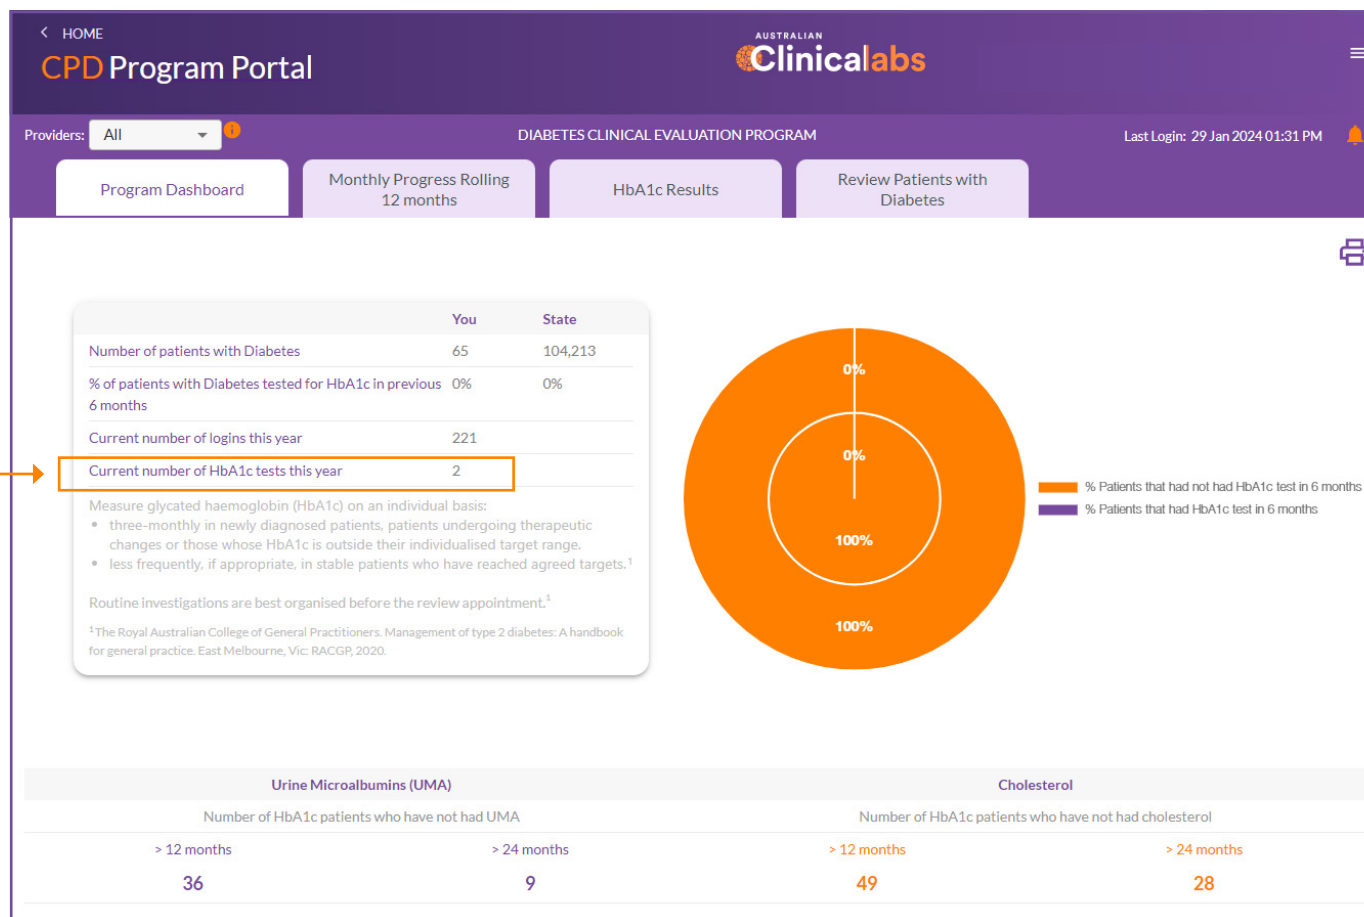

As with Clinical Labs' previous CPD Portal (H.A.R.P.), your personalised Diabetes Program data is organised in four tabs which can be accessed by clicking on each tab on the top of the page. The interactive charts feature current information that is driven by your patient data being processed by our laboratory information system.

## Select your Provider/ Practice

If you have signed up to one of our CPD programs under more than one provider number / practice, use the drop down menu to view specific data for each practice location. The default setting is 'All', whereby the data from all your practices will be combined. To add or remove a provider number, please lodge a CPD enquiry using the 'Give Us Feedback' form.

## Number of HbA1c tests

Keep note of this number to see how your HbA1c referrals are tracking this CPD year. This is essential for CPD Program qualification.

## Print page

Click the print icon to print this page of your report.

The final Diabetes tab is where your patient recall list is found. Ensure the 'Display Patients Overdue for HbA1c testing' toggle is in the 'ON' position before selecting your patients to recall.

### Overdue Patient Toggle

Toggle ON to view patients due for HbA1c testing. Before sending recalls, you should toggle ON first. Toggle OFF to view all your patients with known diabetes.

### Additional Test(s) Due

Displays recommended additional tests that your patient is also due for. Select 'Send Request Form' to include these additional tests.

### Send to Patients

Once you have selected your patients for recall, click 'Send to Patients' to activate the recall letters and/or request form.

### Patient Search

Use the patient search to quickly locate a patient.

### Remove Patient

Click 'Remove' to remove inactive or deceased patients from your list. *Note: action not undoable.*

### Print Recall List

Click the 'Print' icon to print a de-identified version of your recall list for your records.

### Send Recall Letter

Check this box if you wish to send a recall letter to your patient.

### Not Available

This indicates a recall is not available (e.g. still being processed).

### Send Request Form

Check this box if you wish to send a recall letter *and* request form to your patient.

View your monthly Skin Excision Evaluation Program reports with ease within eResults.

## Number of Histology Samples

Keep note of this tally to see how your correctly-coded skin program submissions are tracking this CPD year. This is essential criteria for CPD Program qualification.

## Select your Provider/ Practice

If you have signed up to one of our CPD programs under more than one provider number / practice, use the drop down menu to view reports for each practice location. The default setting is 'All', meaning the reports from all your clinics will be displayed. To add or remove a provider number, please lodge a CPD enquiry using the 'Give Us Feedback' form.

## View Report

Click the file name to view your onscreen monthly report. The reporting period is for the previous calendar month prior to the release date. E.g. Reports released in February will show January data.

The screenshot shows the 'CPD Program Portal' for the 'SKIN EXCISION EVALUATION PROGRAM'. The header includes the 'AUSTRALIAN Clinicallabs' logo and a user login status: 'Last Login: 29 Jan 2024 01:31 PM'. Below the header, there's a 'Providers:' dropdown menu set to 'All'. A 'View Skin Reports' tab is active. The main content area features a search bar with 'Report Start Date' (01/01/2023) and 'Report End Date' (29/01/2024), a 'Search' button, and a status box indicating 'Current number of Histology Samples this year: 0'. Below this is a table with columns: Reporting Month, Provider Number, Created, First Viewed, Last Viewed, Report Viewed, and Download/Print. The table lists two reports for December 2023 and January 2023, both with a provider number of 4126577J. The 'Report Viewed' counts are 20 for December and 11 for January. The 'Download/Print' column contains icons for downloading and printing. At the bottom right, it shows 'Rows per page: 50' and '1-2 of 2'.

Reporting Month	Provider Number	Created	First Viewed	Last Viewed	Report Viewed	Download/Print
<a href="#">December 2023</a>	4126577J	17 Jan 2024	19 Jan 2024	29 Jan 2024	20	
<a href="#">January 2023</a>	4126577J	17 Jan 2024	19 Jan 2024	25 Jan 2024	11	

## Print / Download

Use these icons to print or download a copy of your monthly skin report.

View your monthly Cytology Evaluation Program reports with ease within eResults.

## Select your Provider/Practice

If you have signed up to one of our CPD programs under more than one provider number/practice, use the drop down menu to view reports for each practice location. The default setting is 'All', meaning the reports from all your practices will be displayed. To add or remove a provider number, please lodge a CPD enquiry using the 'Give Us Feedback' form.

## View Report

Click the file name to view your onscreen monthly report. The reporting period is for the previous calendar month prior to the release date. Once you have clicked the report, use the tabs along the top to skip to different sections of the interactive report.

## Number of Cervical Screening Tests

Keep note of this tally to see how your number of cervical screening tests are tracking this CPD year. This is essential for CPD Program

## Print / Download
