

Collection of Semen (VIC & SA)

for Fertility Studies, Vasectomy Reversal of Post Vasectomy for Motility

Equipment

- 1 x 70ml Yellow-top Container
Available from any Australian Clinical Labs collection centre or your doctor.

Procedure

- 4 days prior to the test, abstain from all sexual activity.
- Obtain specimen by masturbation. Do not use a condom or any form of lubricant.
- Collect the entire specimen into a clear, sterile, plastic yellow-top container.
- **Write your surname, first given name, date of birth and the date/time of collection on the container label.**
- **Keep specimen at approximately body temperature.**
- Return the specimen and request form directly to the nearest Australian Clinical Labs collection centre that is attached to a Laboratory within 1 - 1.5 hours of collection.
Call 1300 453 688 for the location of your nearest lab.

Collection of semen post-vasectomy

Collection instructions are the same as above, but check with your surgeon as a period of abstinence may not be required. The specimen can be delivered promptly to an Australian Clinical Labs Collection Centre and from there transported quickly to our laboratory.
