How do I order a Clinical Labs COVID-19 test for travel?

Clinical Labs currently offers two options for COVID-19 tests for travel, a PCR test and a Combined PCR and Antibody (IgG and IgM) test. Both options are available to purchase at store.clinicallabs.com.au.

Please note: These tests are for asymptomatic travellers only.

How much does a Clinical Labs COVID-19 test for travel cost?

The cost of our COVID-19 PCR Test for Travel is \$150 (incl GST) and the cost of our Combined PCR and Antibody (IgG and IgM) Test is \$200 (incl GST). There is no Medicare rebate available for COVID testing related to travel.

Where can I get my COVID-19 test for travel?

Travellers in Western Australia requiring just the COVID-19 PCR Test for Travel can attend any Clinical Labs collection centre. For locations, visit clinicallabs.com.au/location. For travellers requiring the Combined COVID PCR & Antibody Test, or travellers requiring their result in 24 hours, please attend the collection centre located at Unit 2/168 Main Street Osborne Park, Mon-Fri: 7:30am - 1pm. Public holiday testing is available by arrangement, please contact CLWA.Covid@clinicallabs.com.au.

What do I need to take with me to the Travel Collection Centre?

You will need to print the receipt/referral form that was emailed to you and bring this with you to the Travel Collection Centre, together with proof of identification (driver's licence, passport).

How long before I travel should I get my COVID-19 test?

It is important that you check with the embassy of the country you are flying to or with your travel provider to find out how many days before travel COVID-19 testing must be completed.

Some countries of destination require your results to be certified by a General Practitioner (GP). If you require your results to be certified by a GP you will need to allow time after receiving your results in order to do this.

How quickly will I get my results?

Results for the Clinical Labs COVID-19 tests for travel will be available within 24-48 hours of testing, for metropolitan collections only. If requiring a COVID test for travel in a regional area, please email to discuss.

How will I receive my results?

You will be sent an SMS notification and can then access the printable result for your travel requirements through our secure portal.
