

# Insurance-Related Testing

## *Assessing applicant health*

Life insurance companies regularly require applicants undergo routine medical examinations and pathology testing before approving insurance cover.

Australian Clinical Labs has extensive experience and expertise in assisting providers assess the health risks of insurance applicants via our high-quality pathology testing and timely reporting.

Our highly skilled pathologists, scientists and NATA-accredited laboratories conduct comprehensive pathology analysis to support the assessment of applicants for numerous medical conditions. Tests may include, but are not limited to, the following:

- Full Blood Examination (FBE)
- Hepatitis A, B and C serology
- HIV serology
- Liver and Renal Function tests
- Glucose levels
- Lipid Profile Test (for Cholesterol, Triglycerides HDL (“good” cholesterol) and LDL (“bad” cholesterol))
- Routine Urine Analysis
- Plasma Cotinine (tobacco dependence)

If you would like more information regarding Insurance-related Testing options offered by Clinical Labs, please call our Commercial Team on **13LABS (13 52 27)** or email [commercial@clinicallabs.com.au](mailto:commercial@clinicallabs.com.au)

# Why choose Clinical Labs for your Insurance-related Testing?

## Leaders in science

As a major pathology provider, Clinical Labs is in a unique position to provide a superior testing service – all testing and analysis are conducted in our state-of-the-art, NATA-accredited laboratories staffed by a highly skilled team of RCPA-accredited pathologists, scientists and laboratory technicians.

## Personalised service

Our Commercial Team will develop a tailored package that fits the needs of your organisation – including co-branded personalised request slips and the supply of sample collection consumables.

## Superior logistics

Should you employ your own collection staff, we would be pleased to accept sample drop-off at any of our accredited collection centres. These can be located via [clinicallabs.com.au/location](http://clinicallabs.com.au/location). Our collection centres are strategically located for easy sample drop-off and pick-up by our extensive courier network.

## Easy-to-access results

Results may be accessed via our secure online portal or via electronic download directly to your patient management system. Clinical Labs' results delivery provides timely and convenient access to results, along with reduced administrative costs for your business.

## About Australian Clinical Labs

Australian Clinical Labs is one of the largest pathology providers in Australia, with our laboratories performing close to 8 million episodes a year for a range of referrers including doctors, specialists, patients, hospitals and corporate clients.

Along with providing routine and specialised pathology tests for our GP and specialist referrers, we offer commercial pathology services for companies, occupational health and safety providers, consultants and government bodies.

The following Commercial Pathology Services may also be of interest to your company:

- Pre-employment Screening
- Drug and Alcohol Testing
- Employee Health Screening
