How do I order a Clinical Labs COVID-19 test for travel?

Clinical Labs currently offers two options for COVID-19 tests for travel, a COVID-19 PCR test for \$150 and a Combined PCR and Antibody (IgG and IgM) test for \$200. Both options are available to purchase at store.clinicallabs.com.au. **Please note:** These tests are for asymptomatic travellers only. There is no Medicare rebate available for either test.

Where can I get my COVID-19 test for travel?

Clinical Labs COVID-19 tests for travel are only available at Clinical Labs Travel Collection Centres. To find the collection centre nearest you, visit clinicallabs.com.au/travel

What do I need to take with me to the Travel Collection Centre?

You will need to print the receipt/referral form that was emailed to you and bring this with you to the travel collection centre, as well as proof of identification (driver's licence, passport).

How long before I travel should I get my COVID-19 test?

It is important that you check with your airline as to the COVID-19 travel testing requirements prior to departure.

How quickly will I get my results?

Results for Clinical Labs COVID-19 tests for travel will be available within 48 hours of testing.

How will I receive my results?

You will be sent an SMS notification that your result is ready and can then log back into store.clinicallabs.com.au to access your downloadable results certificate. The certificate includes: name, date of birth, passport number, nationality, time and date of collection, signature of doctor, sample type, laboratory details, digital seal/stamp and accredited for compliance with NPAAC Standards and ISO 15189 - Medical Laboratories.
