# We're simplifying the way you access patients' results.

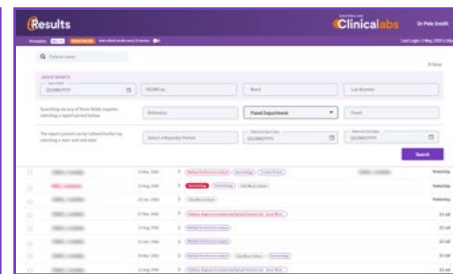

As leaders in medical technology, Australian Clinical Labs are always looking for ways to make the pathology process quicker and our results easier to access. Created by doctors, for doctors, Clinical Labs has developed a simple, smart and customisable eResults platform, now featuring a mobile app version that you can download for your iOS or Android device.

This new application will save health professionals valuable time when accessing patient results because of the following features:

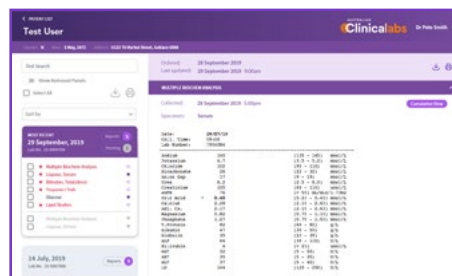

- A simple, intuitive design that highlights recent and unread patient results
- A faster, smoother process to view all results from each patient episode
- A smarter search for patients and tests
- Responsiveness to all screen sizes
- Intuitive, cumulative view that shows complete patients' history
- Ability to filter your patients' results by provider or ward
- Advanced downloading and printing options, including Print Compressed Report feature
- Preview mode option allowing you to quickly preview results from home screen
- Automatic refresh of patient results

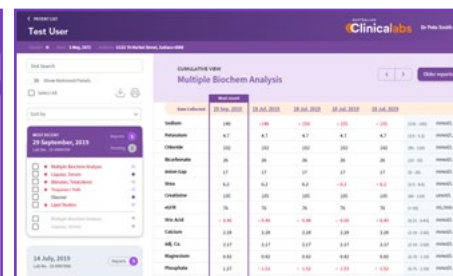

New and improved home screen

Advanced search feature

Episode view – displays all results for a patient episode with a single mouse click or finger tap

Cumulative view – displays all history for a specific test in a single view

## All you need to do is visit the new URL. Now, that is a result.

If you're already registered with eResults, the new eResults is ready for you to use now.

1. Simply go to: [results.clinicallabs.com.au](https://results.clinicallabs.com.au)
2. Enter your existing login details.
3. Get your patients' results faster, easier, smarter.

If not already registered, it's quick to do so at [www.clinicallabs.com.au/register/eHealth/](https://www.clinicallabs.com.au/register/eHealth/)

Tip for Smart Device users: Select 'Add to Home Screen' option from your internet browser for quick future access to eResults.

Any questions, please call us on **1300 669 961** (or **1300 367 674** for WA) and we'll talk you through it or arrange a visit.

# Mobile App version now available!

Clinical Labs are pleased to announce a new and improved eResults Mobile App. This easy-to-use and intuitive app is the easiest way to access results quickly and reliably, and is perfect if you require fast results on your device.

The eResults app is available to download now for Android and iOS devices. Simply search for 'Australian Clinical Laboratories' in Google Play or the App Store, download and install the app for free.

You can still use your existing username and password.

### Bonus features for Mobile App users:

- Supports biometrics for quick login
- Pull down to refresh results

Please note: If you still are using the legacy app, please upgrade to the new version following the instructions above. The legacy mobile app will no longer be updated.
