

## Collection of Semen (VIC, SA & WA)

for Fertility Studies, Vasectomy Reversal or Post Vasectomy for Motility

### Equipment

- 1 x 70ml Yellow-top Container  
Available from any Australian Clinical Labs collection centre or your doctor.

### Procedure

- 2-7 days prior to the test, abstain from all sexual activity.
- Obtain specimen by masturbation. Do not use a condom or any form of lubricant.
- Collect the entire specimen into a clear, sterile, plastic yellow-top container.
- ***Write your surname, first given name, date of birth and the date/time of collection on the container label.***
- ***Keep specimen at approximately body temperature.***
- Return the specimen and request form to your nearest Clinical Labs semen sample drop-off location within 1 hour of collection. For locations please visit [clinicallabs.com.au/patient/seminal-analysis-collection-centre-locations](https://clinicallabs.com.au/patient/seminal-analysis-collection-centre-locations).

### Collection of semen post-vasectomy

Collection instructions are the same as above, but check with your surgeon as a period of abstinence may not be required.
